OBJECTIVE

Computer Science and Engineering student in the 3rd year, seeking a web development role to apply and enhance my skills.

EDUCATION

Bachelor of Computer Science and engineering, Ballari institute of technology and management Expected 2025

Higher Secondary Education, Sri chaitanya pu college

2019 - 2021

SKILLS

Technical Skills	C, PYTHON, MYSQL, basics in HTML and CSS
Soft Skills	Problem-solving, Team collaboration, adaptability

PROJECTS

Bank Management System:- Language: C

Developed a comprehensive system to manage banking operations, including account creation, transaction processing, and balance inquiries.

World Population Data Website:- Technologies: Python, Flask, HTML, CSS, MySQL

Built a website using Python and Flask to display world population data, allowing users to run queries and retrieve specific information stored in a MySQL database.

Weather Report System:- Language: Python

Created a weather reporting application using API integration to monitor and display weather conditions in real-time.

EXTRA-CURRICULAR ACTIVITIES

- Hackathon Participant: Project: Optimizing Doctor Availability and Appointment Allocation in Hospitals
Technologies: Digital Technology, RFID Sensors Developed a website to provide live updates on doctor availability using RFID sensors.
- Short Movie Making Contest: Participated in a college-organized short movie making contest, showcasing creativity and teamwork.

LEADERSHIP

- Hackathon Team Leader: Led a team in a hackathon focused on optimizing doctor availability and appointment allocation in hospitals. Coordinated the development of a website using digital technology and RFID sensors for real-time updates on doctor availability.
